

# ALISON HAGERUP

1958-2008

It is with deep regret and much sadness the Board of Commissioners of the Captiva Erosion Prevention District announces the passing of our Administrator Alison Hagerup on June 1, 2008. Alison had been the Administrator of the CEPD for over 20 years and led Captiva Island through three beach re-nourishments. She was highly respected throughout the State for her time, talents and energy spent on making Captiva a “role model” for future projects and always lending a hand or her knowledge to others. Her hands-on approach and people skills were unmatched.

A Celebration of the Life of Alison Hagerup was held on June 10, 2008 at Captiva’s Chapel by the Sea and widely attended by family, friends and professional colleagues both within the State and out. The north-end public beach access has been named for Alison in honor of her many accomplishments and in appreciation for her many years of dedicated service.

Alison is survived by her daughter Carly , son-in-law Jeremy and grandson Tadem.

John Likakis so aptly wrote:

“I would suggest that Alison's greatest memorial is Captiva's beaches. Were it not for her tireless efforts through the years, our beaches would be mere vestiges of their present greatness.

So the next time you're walking along the surf or watching the sun set over the Gulf, take a few moments to think of Alison. In the beauty before you lies her legacy to our island. “
