

Assessment Update

Don't send us checks-read this first!

The time frame in which the CEPD could accept pre-payments expired in September. As of September 15, 2007, the properties that had not yet paid were incorporated into year one of a 7 year payment plan which was filed with the Lee County Property Appraiser to be billed with the Lee County Property Tax bill which came out in November 2007.

The total assessments have been divided into 7 annual installments, the first of which was billed on the November tax roll with 5.5% interest. Once that installment has been paid with the property taxes any property owner who does not wish to stay on the installment plan can contact the CEPD office for the pay-off amount with no additional interest if done by August of 2008.

Please contact our office at 239-472-2472 if you require any further information.
